

## **Modified Gas (6,500lbs)**

1. Must have a cast iron block, aluminum heads allowed.
2. Must have OEM drive train in factory location.
3. No sheet metal intakes allowed.
4. Single 4150 base or dominator style naturally aspirated.
5. Draw Bar or Reese (style) hitch must be no less than 42" from center line of the axle to chain hook point. Hitch may not mount further than center line of rear axle.
6. Open headers including hood headers are allowed.
7. Hitch height is 26".
8. No tires can measure larger than 33"x15.50". No cutting will be allowed. Tires must be DOT approved.
9. Total weight bar distance is 60" measured from the center line of the front axle to the furthest object in front of the truck.
10. Flat beds are allowed.
11. Interior cutting and gutting are allowed, but must have a firewall. Racing seats are allowed.
12. Cutting and gutting of the bed is allowed, but must have a cover on the top of the bed.
13. Fuel cells are allowed only in the bed of the truck.
14. If wheelbase exceeds 133", truck must lose 2" of hitch height or 200lbs.
15. Electric water pumps are allowed.
16. Must have working brakes on front or rear axle in factory locations.
17. Traction bars on front and rear are allowed, and may be permanently fixed.
18. One ton or less factory drive train.

## **Safety Regulations**

1. If any of these regulations do not pass, then you will be automatically be disqualified.
2. Must have S.F.I. approved bell-housing or transmission blanket.
3. Must have operating kill switch near the hook point.
4. Must have S.F.I. approved steel flywheel and harmonic balancer.
5. Must have drive shaft loops and u-joint shields at all u-joints.
6. Must have firewall and floorboards.
7. Must have accessible fire extinguisher for driver.
8. DOT approved helmets are required for all drivers.
9. Fire suit is recommended.
10. Tech committee has all final say.
11. Truck must be safe to pull.

# Factory Gas

1. One ton or less OEM drivetrain.
  2. Single carburetor or factory fuel injection system only.
  3. Pump gas only. NO RACING FUEL. NO EXCEPTIONS.
  4. DOT tires only.
  5. No added weight of any kind.
  6. Stock fuel tank only.
  7. No aftermarket aluminum heads allowed. (OEM only)
  8. Aluminum intakes are allowed.
  9. No headers or open exhaust.
  10. Exhaust must run past the rear of the cab.
  11. Factory motor and stock ignition only. No aftermarket ignition controls of any kind will be allowed.
  12. 5/16" chain or 2" strap for drive shaft loops.
  13. 3" clevis must pull from bumper or Reese (style) hitch. 26" maximum hitch height. No mid mount hitches. Hooking point must be safe (to be determined by tech committee).
  14. Must have valid license and proof of insurance.
  15. Must be street legal. Operable lights, and other equipment.
  16. No high performance cam shafts of any kind.
  17. 6" traction bars are allowed from rear axle, hooking towards the front of the truck, no further than the rear of the cab. No bars from the rear axle to the rear of the truck. No blocking of suspension will be allowed of any kind.
- Note: All tool boxes will be searched. No auxiliary fuel tanks will be allowed. NO EXCEPTIONS.

## Safety Regulations

1. If any of these regulations do not pass, then you will be automatically disqualified.
2. Must have drive shaft loops.
3. Must have accessible fire extinguisher for driver.
4. DOT approved helmets are recommended.
5. Tech Committee has final say. NO EXCEPTIONS.

# Super Stock Gas (6,500lbs)

1. Must have OEM drive train in factory location.
2. No sheet metal intakes allowed.
3. No aluminum heads.
4. single 4150 base carburetor, naturally aspirated.
5. Draw Bar or Reese (style) hitch must be no less than 42" from center line of axle to chain hook point. No part of the hitch may go passed center line of the rear axle.
6. Open headers allowed, as long as they are down and back.
7. Hitch height is 26". Must be rigid in all directions. No supports from hitch to rear axle.
8. No tires can measure larger than 33"x12.50". No cutting of the tires. Tires MUST be DOT approved.
9. Hanging weights are allowed. Weight bar can not exceed 6" from front bumper in stock location. Weights hanging directly below front bumpers are accepted.
10. Must have OEM or factory floor in bed. No cutting or gutting will be allowed.
11. Must have interior factory bench, and/or bucket seats. Must have factory dash pad.
12. Fuel cells allowed only in the bed of the truck.
13. Battery must be in factory location.
14. No alcohol or nitrous.
15. Must have at least 3 rear leaf springs.
16. If wheelbase exceeds 133", the truck must lose 2" of hitch height or 200lbs.
17. Factory power steering is required.
18. Electric water pumps are allowed.
19. must have working brakes on all four wheel.
20. Removable front and rear traction devices are allowed as long as they are removable.

## Safety Regulations

1. If any of these regulations do not pass, you will automatically be disqualified.
2. S.F.I. approved bell-housing or transmission blankets. HIGHLY RECOMMENDED.
3. Operating kill switch near the hook point. HIGHLY RECOMMENDED.
4. S.F.I. approved steel flywheel and harmonic balancer. HIGHLY RECOMMENDED.
5. Must have drive shaft loops and u-joint shields on the rear u-joints.
6. Must have firewall.
7. Must have accessible fire extinguisher for driver.
8. DOT helmets are required for all drivers.
9. Tech committee has all final say.
10. Truck must be safe to pull.
